

क्या कहें, क्या कहें, वरुण-सावित्री पूजा - हर वर्ष माँ वसुंधरा का पूजा

करती आरंभ है! This day or तिथि falls in JUNE every year!

Why? I know this puja has been done since several centuries

I mean this is a centuries old tradition in India. It has

been same on this day only. But now it falls on or near

to World Environment Day. People start talking about

world environment day on social media with a # (hashtag).

But they do not talk about Vat-Savitri or its keep it simple

क्या कहें पूजा / Why? because क्या कहें पूजा is done by Indian

and any thing Indian or India means backward (isn't it)

Gone are the days. now we know why it is celebrated.

क्या कहें or वरुण-सावित्री - The Banyan Tree as world knows, it is

a symbol of longevity अमरत्व. It never dies. This tree

stands forever, lives forever - thus all women seek

blessings from this deity (the Banyan tree) for longevity of

their son, their husbands. Hence comes the gender discrimination

Mothers themselves seek for others (for son & husbands) even seek

boon of prosperous progeny - I know & remember, Mothers

swallow the buds of shoots/branches - owing to get a son !!

as a boon from Banyan. But discrimination comes in the form

of blessings the mothers seek - they seek blessings to remain

"Subagan" सुहृदोता - सुहृदोता but silent word is kill they die.

They seek blessings that they should die being a "Married" woman.
